Summary

Frontend Engineer with 2+ years building production UI systems at Walmart Global Tech. Specialized in **React**, **TypeScript**, and **Next.js** — from internal analytics dashboards to an open-source component library with **500+ weekly downloads**. Strong foundation in **component architecture**, **accessibility (WAI-ARIA)**, **SSR/SSG**, and **performance optimization**, with full-stack context across high-scale distributed backends.

Work Experience

Walmart Global Tech July 2024 – Present
Bengaluru, India
Software Development Engineer II

- **Analytics Dashboard:** Built an internal analytics dashboard (**React**, **TypeScript**, **GraphQL**) with **Redux** state management, lazy-loaded modules, and **Axios** data fetching — reducing on-call reliance by **40%** and cutting initial bundle load time by **~35%**.
- **UI Architecture:** Designed reusable **React** component library and data-fetching patterns adopted across internal tooling, enforcing consistent UI contracts and accelerating feature delivery.
- **Automation:** Automated data re-ingestion and audit workflows on **GCP** via **Java** and **Kafka**, eliminating **10–12 DevOps hrs/week** and reducing manual operations by **75%**.
- **Platform:** Contributed to Walmart's catalog aggregation backend — reactive **Kafka** + **Cassandra** services with **35%** peak surge reduction monitored via **Grafana**.

Walmart Global Tech May 2023 – June 2024
Bengaluru, India
Software Development Engineer Intern

- **Returns Dashboard:** Built a returns lifecycle tracking dashboard (**React**, **GraphQL**, **Axios**) with real-time order status UI and **Redux** state management, cutting ticket resolution time by **~30%**.
- **Developer Platform:** Built dependency management tooling and secure **CI/CD** identity key generation for Walmart's internal platform, improving access governance and security.
- **Security:** Architected a **Java Spring Boot** gateway filter enforcing authorization policies for sensitive internal APIs, preventing unauthorized downstream access.

Zeko (formerly Qricle) January 2023 – March 2023
Remote
Frontend Development Intern

- Developed **SEO-optimized** web apps and admin dashboard with **Next.js SSR**, building responsive, accessible UI components and improving **Core Web Vitals** across devices.

Education

Indian Institute of Information Technology, Lucknow 2020 – 2024
Bachelor of Technology in Information Technology CGPA: **8.6/10**

Skills

Frontend: React, Next.js, TypeScript, JavaScript, HTML/CSS, GraphQL, Axios, Redux, Tailwind CSS, Vite, Webpack, Jest, Testing Library, Storybook, CSS custom properties, WAI-ARIA

Backend & Infra: Node.js, Java, Spring Boot, Apache Kafka, Cassandra, PostgreSQL, Redis, Docker, GCP, AWS, Kubernetes, CI/CD, Git

Concepts: Component Architecture, SSR/SSG, Performance Optimization, Accessibility (WCAG), Core Web Vitals, Micro-frontends, System Design, Event-Driven Architecture, Observability

Open Source & Projects

Tokis – Open Source React Component Library 2026

- Built and published a **zero-runtime, token-based React UI library** on npm with **500+ weekly downloads** — implementing accessible **WAI-ARIA** components, a **CSS custom properties** theming system, and a tree-shakeable bundle for minimal footprint.
- Designed a composable component API with full **TypeScript** support, documented via **Storybook**, targeting scalable design system adoption.

Self-Hosted Streaming Platform 2025

- Deployed a containerized streaming platform using **Docker** with encrypted remote access via **Cloudflare Tunnels**, implementing a **zero-trust architecture** with no exposed network ports.

Drone Development and Data Classification (Patent Pending) 2022 – 2023

- Led a **government-funded** project for India's Ministry of Science and Technology, developing an open-source drone platform for agricultural **ML** data analysis.

Achievements

Google Summer of Code 2022 Contributor (ScoreLabs) | **Codeforces Specialist (1411)** | **CodeChef 4-Star** | **Rank 7**, Codeforces Round 826 | **Innovator Award** – Hack-o-Fiesta, IIIT-Lucknow | **Hacktoberfest Maintainer** (Internet Archive, Appwrite, CircuitVerse)
